Subject: Decision on your manuscript - JEST-D-23-02181R2

Ref.:Ms.No.JEST-D-23-02181R2

Paint Effluent Treatment Through the Fenton-Type Coagulation Process with peracetic acid and Iron Ions
International Journal of Environmental Science and Technology

Dear Me Carlos,

I am pleased to tell you that your work has now been accepted for publication in International Journal of Environmental Science and Technology.

Comments from the Editor and Reviewers can be found below.

Thank you for submitting your work to this journal

With kind regards
M. Abbaspour
Editor-in-Chief
International Journal of Environmental Science and Technology

Comments from the Editors and Reviewers:

Authors may need to take specific actions to achieve compliance with funder and institutional open access mandates. If your research is supported by a funder that requires immediate open access (e.g. according to Plan S principles) then you should select the gold OA route, and we will direct you to the compliant route where possible. For authors selecting the subscription publication route our standard licensing terms will need to be accepted, including our self-archiving policies. Those standard licensing terms will supersede any other terms that the author or any third party may assert apply to any version of the manuscript.

Find out more about compliance: <https://www.springernature.com/gp/open-research/funding/policy-compliance-faqs>
