Dear Mr Sanches:

Your manuscript entitled "Reproductive modes and patterns of egg and clutch size among anurans in Eastern Amazonia, Brazil", which you submitted to The Ethology Ecology & Evolution, has been reviewed. The referee comments are included at the bottom of this letter and in the attached file.

The reviews are in general favourable and suggest that, subject to minor revisions, your paper could be suitable for publication. Please consider these suggestions, and I look forward to receiving your revision.

When you revise your manuscript please highlight the changes you make in the manuscript by using the track changes mode in MS Word or by using bold or coloured text.

To submit the revision, log into <https://mc.manuscriptcentral.com/tee> and enter your Author Centre. Click on the purple 'Click here to submit a revision' link to start the revision process. If you have more than one manuscript awaiting revision, this will take you to a list of those papers and you can click on the 'Create a Revision' link for the paper you want to revise. Your manuscript number has been appended to denote a revision. Please enter your responses to the comments made by the referee(s) in the space provided. You can use this space to document any changes you made to the original manuscript. Please be as specific as possible in your response to the referee(s).

Alternatively, once you have revised your paper, it can be resubmitted to Ethology Ecology & Evolution by way of the following link:

*** PLEASE NOTE: This is a two-step process. After clicking on the link, you will be directed to a webpage to confirm. ***

https://mc.manuscriptcentral.com/tee?URL_MASK=76762bf39b0b400dbe4b343efac812d0

IMPORTANT: Your original files are available to you when you upload your revised manuscript. Please delete any redundant files before completing the submission.

Because we are trying to facilitate timely publication of manuscripts submitted to Ethology Ecology & Evolution, your revised manuscript should be uploaded as soon as possible. If it is not possible for you to submit your revision in a reasonable amount of time, we may have to consider your paper as a new submission.

Once again, thank you for submitting your manuscript to Ethology Ecology & Evolution and I look forward to receiving your revision.

Sincerely,
Professor Giacoma
Associate Editor, Ethology Ecology & Evolution

Referee(s)' Comments to Author:

Referee: 1

Comments to the Author

I think the authors have done a pretty good job with refining their manuscript. I was a little concerned with some of the edits/clarity in the intro through till results, but the discussion saved the day and was excellent.

I think the authors just need to further refine these other sections. I have provided edits and comments to assist with this. Please note I have been to the point and blunt just for the sake of speed. Overall, the changes are minor and should be easily done.
